"Flash 20/12 –N- Your Super Grill" is totally different than any known project to encourage Kansas City urban core youth to take care of their teeth. It's flashy, unorthodox, and off the hook. Working with a team of high school students, ArtsTech-A Center for Youth Enterprise and Storytellers Inc., Artist Collective have created an oral health focused comic book and DVD that is interesting, meaningful and relevant to middle school youth.

"Sentenced to the Arts" Project

" The Sentenced to the Arts Project (STTAP) is an innovative, arts-based treatment program for adjudicated youth. Professional artists from the Kansas City area facilitate group art sessions with adjudicated youth, offering expressive therapy. Youth pursue positive artistic endeavors in a healthy, caring and structured environment. The long-term goals of the program are reduced delinquent behavior, improved academic performance, and increased involvement in the community with caring adults."

"If we don't support artists, there is no art."
The arts community is suffering very difficult times in this economic crunch. The If we Don't support artists, there will be no art mural project was a call to artist in the community to design an image to jolt the conscious of our city to increase their support for the art community or soon there might not be any art to appreciate. Now is the time when innovation and creativity are most needed and supporting art initiatives is a major step in the right direction.
